About us

Green is a Saudi firm providing accounting, audit and professional advisory services.

We combine accounting and financial expertise, governance, and business-related legal knowledge to deliver services that reflect the nature and stage of each organization.

We are proud that

90%

of our team comprises Saudi professionals.

Accreditations & licences

We practise under licences and approvals from the competent authorities.

Our vision

For Green to be a leading, multidisciplinary Saudi professional firm, recognized for the quality of its work and the depth of its expertise in specialized financial, legal and tax matters, and able to support its clients in their most complex decisions and engagements.

Our mission

We provide integrated professional solutions that bring together accounting, audit, and financial, zakat, tax and related legal advisory. We take ownership of each matter, from understanding it through to implementation and closure, drawing on Saudi expertise and in-depth knowledge of the local business environment.

Our values

Integrity & Professional Independence

We uphold integrity, independence and objectivity in all our work.

Quality

We commit to high professional standards and outputs you can rely on.

Owning the Solution

We own each matter from start to finish; we don't stop at giving an opinion but work to reach an actionable solution.

Client Partnership

We understand our clients' business and work with them as a long-term professional partner.

Development

We continuously invest in knowledge, technology and new capabilities.

Knowledge Transfer

We build knowledge within Green and share it across our teams and clients, turning individual expertise into lasting institutional capability.

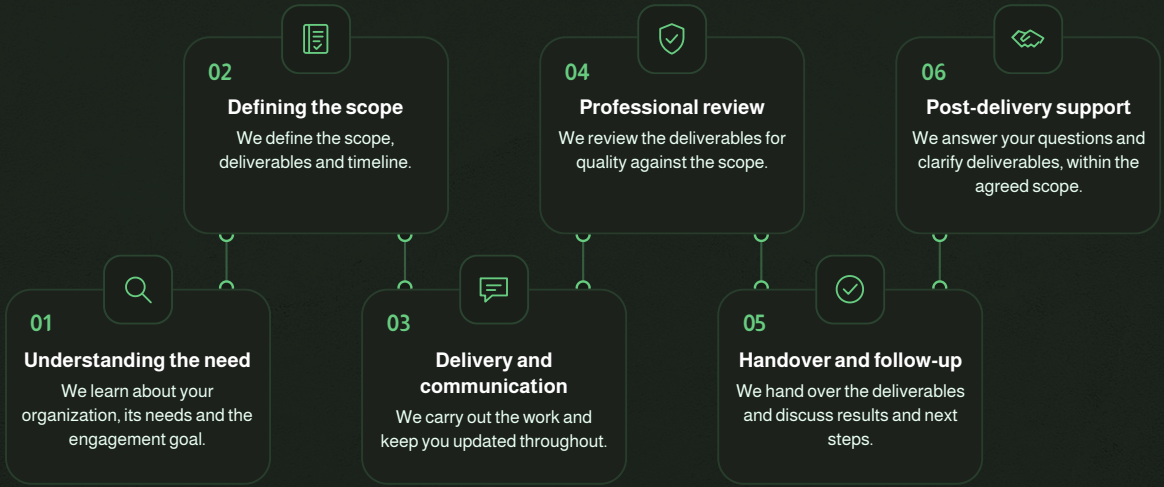
Our way of working



green
المحاسبة والمراجعة والاستشارات المهنية
Accounting, Auditing & Advisory

Our team

Diverse expertise, an integrated way of working.

The Green team brings together specialists in accounting, audit, financial advisory, governance, legal services and human resources, working together to deliver accurate, reliable outputs.

01 Integrated disciplines

Expertise covering the financial, regulatory and organizational sides of a client's business.

02 Licensed professionals

Certified public accountants licensed by SOCPA, and holders of the US CPA.

03 A team for each engagement

Each engagement team is formed around its nature and requirements, with clear responsibilities.

04 Quality before delivery

Outputs are reviewed against professional standards before they reach the client.
